## LIQUID FEEDERS

### OB-400

- ◆ 400-gallon capacity
- ◆ Four-wheel
- ◆ Proven one-piece design
- ◆ Two-inch drain for easy cleaning
- ◆ Twelve-inch lid for easy fill
- ◆ All stainless steel hardware

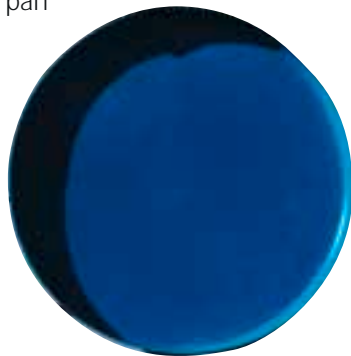

### OB-285

- ◆ 285-gallon capacity
  - Two-wheel
  - Four-wheel
- ◆ Two-piece design easily snaps together, no hardware required
- ◆ All stainless steel hardware

### OB-400 and OB 285 Glides

- ◆ One-piece, heavy-duty pan with steel reinforced connecting point
- ◆ Add an eye bolt to the connecting point and tow to other pasture areas
- ◆ Safely tows up to 100 gallons

### OB-90

- ◆ Two-wheel, one-piece construction
- ◆ Ideal for small space feeding

## TROUGHS (designed for dry or liquid feeds)

### 10-ft. Double Wall – 250 gallons

- ◆ Large capacity – 120" long x 43" wide x 21" deep
- ◆ Strong, one-piece construction – We have had ranchers comment "...it's the only thing my bull can't tear up"
- ◆ Drain holes at each end
- ◆ Tow channels on the bottom to easily move to other areas

### 10-ft. Double Wall Slim – 125 gallons

- ◆ Compact, strong one-piece construction
- ◆ 120" long x 32" wide x 18" deep
- ◆ Drain holes and tow channels

### 8-ft. Double Wall – 50 gallons

- ◆ One-piece construction – 96" long x 24" wide x 7" deep
- ◆ Inner wall cavity can be filled with water to prevent unit from tipping when stepped on by livestock
- ◆ Single drain hole

## DRY FEEDERS

### MF-2 Mineral Feeders

- ◆ Holds 200 lbs. of dry nutritional product
- ◆ Molded-in compartments to separate nutrients and lick blocks
- ◆ No metal parts to rust

## Post Feeder

- ◆ Smooth, rounded shape to prevent injuries
- ◆ Designed for easy mounting on dimensional 4x4 post
- ◆ Includes stainless steel mounting hardware
- ◆ Mounts at any level convenient to feed various size livestock
- ◆ Strong double-wall construction

## SPECIALTY ITEMS

### Feed with Eeze

- ◆ Clean, dry storage for blended feeds
- ◆ Holds 30 gallons (200 lbs.)
- ◆ Translucent construction allows visual monitoring of contents
- ◆ Convenient lid snaps on and has molded-in information areas to note nutritional needs

### "No Crib" Covers

- ◆ Helps prevent cribbing
- ◆ Reduces health-related problems
- ◆ Easily covers existing damage and prevents damage to new stalls
- ◆ Reduces maintenance cost
- ◆ Fits snugly on 2" dimensional lumber
- ◆ Hold in place with screws or staples
- ◆ 48" long x 4" high x 2" wide
