

Dura-Cast Open Top Tanks offer smooth surfaces of FDA-compliant polyethylene resin that has been UV-stabilized for long life, durability, and ease of maintenance. Smooth surfaces prevent damage to aquatic products or stored contents, and the resin is non-toxic to animals and aquatic life. Our standard open top tanks are one-piece molded products that have .25" wall construction and can be self-standing. Selected Tanks are available in Heavy Duty or Super Duty wall thicknesses. Open top tanks are typically used for water or liquid storage, bathing; fish and reptile breeding. Drains are not included, but can be ordered as an option and located to customer specifications. Tanks have a 1.5", 2", or 3" lip or flange at the top.

Product #	Shape	Dimensions	Height	Gallons	Colors & Notes
502016	Rectangular	18.5" x 18.5"	19"	16	Natural, Blue
