

LAUNDRY TRANSPORTATION EQUIPMENT

Dura-Cast continues to respond to requests from laundry managers who want innovative products that solve their problems. Adding value to the traditional poly-bushel cart was a challenge, but we revolutionized its functionality with an updated ergonomic design and multiple options.

The Laundry Managers' Problem

If the standard poly-bushel cart could meet the ergonomic demands for today's smaller workforce, it would provide more value to the operation.

The Equipment Problem

Traditional poly-bushel carts haven't had a functionality update or an ergonomic assessment in decades.

PRODUCT DESCRIPTION

The Poly-Bushel Cart is a new generation cart that is ergonomically designed for today's smaller workforce. Combine this with the cart options for a full range of flexibility – configure it with one, two, or four compartments, add a spring bottom, or use the new cover to keep contents clean and secure. This new family of Poly-Bushel carts provides more functionality in industry-standard footprints.

The Dura-Cast Design Team created a Poly-Bushel cart that is easier to unload because of its lowered side sections. Operators had trouble reaching the last few items at the bottom of traditional poly-bushel carts so Dura-Cast lowered the side sections by 3-1/2" to make the job easier.

Strength and long-term durability are accomplished through the integrated rolled top edge and Dura-Cast's unique ribbed construction. Poly-Bushel Carts can be nested for efficient storage or shipping. Impact resistant linear polyethylene resin ensures that your Poly-Bushel cart will continue to perform for years in the toughest of conditions. Configure the poly-bushel cart to your requirements by selecting one of the many caster configurations available.

See the Poly-Bushel Cart Options Information Sheet for full descriptions of the following options:

Spring Bottoms

Cart Dividers

Lids

Poly-Bushel Carts

FEATURES	FUNCTIONS / BENEFITS
New generation cart	Lower costs, better production, and longer asset life
Ergonomically designed lowered side sections	More productive for today's workforce, helps reduce worker-related injuries
Impact resistant linear polyethylene resin	Toughest material used in trucks today, scratch and gouge resistant
Rolled top edges	Reduces cart bulging and bowing
All edges are polished and smoothed	Professional appearance, eliminates sharp edges
Casters	Order with caster sizes and configurations of your choice
Structural Ribs	Add strength & durability

CART SPECIFICATIONS

All Poly-Bushel Carts	Manufacturing Material	Impact resistant linear polyethylene resin
	Lowered Side Section	3-1/2" below top
	Drain Holes	Yes
	Base	Recycled content polyethylene
	Standard Colors	#71 Light Blue, #14 Marine Blue, #26 Tan, #08 Hunter Green, #01 Black, #13 Brown, #04 Dark Gray, #15 Light Gray
	Optional Colors	#07 Red, #16 Yellow, #24 Orange, Custom colors upon request.
Optional:		
	Casters	3", 4", 5", and 6" swivel &/or rigid
	Molded-in Custom Logo	Request price quote
	Custom Stenciling	Request price quote
12-Bushel	Overall Dimensions	38" x 27-1/2" x 35-1/2" high (with 5" casters)
	Approximate Weight	52 lbs.
16-Bushel	Overall Dimensions	41-3/8" x 30-1/2" x 37-1/2" high (with 5" casters)
	Approximate Weight	60 lbs.
20-Bushel	Overall Dimensions	46-3/8" x 34-3/8" x 39-1/2" high (with 5" casters)
	Approximate Weight	73 lbs.
